18-SPOTTED LADYBIRD

Myrrha octodecimguttata

4-5 MM

Europe, North Africa, Russia, Central Asia, Siberia, Mongolia.

"There are thousands of ladybird species around the world, and no two gardens are ever quite the same," Grandmother says. "Our world is a generous place. There is enough sunlight, honeydew, and aphids for everyone."

PINK SPOT LADY BEETLE

Coleomegilla maculata

6 MM

Southern Canada, USA, Central and South America.

STEELBLUE LADYBIRD

Halmus chalybeus

3-4 MM

Australia. Introduced in New Zealand, Hawaii, and California.

22-SPOTTED LADYBIRD

Psyllobora vigintiduopunctata

3-5 MM

Europe, parts of Asia. Feeds on mildew, not aphids.
